

**SECURE. DISCREET. RELIABLE.
YOUR WISH. OUR STYLE.**

VIA MAT INTERNATIONAL
safe from safe to safe®

WHO WE ARE

We at VIA MAT INTERNATIONAL are specialists in the valuables transportation sector with a long-standing tradition in offering our customers high-quality professional services when handling their precious goods.

An efficient management structure and easy-to-understand tariffs enable us to offer our customers fair and competitive prices. We aim to achieve maximum customer satisfaction through constant review of our service quality.

TRANSPORTATION

Worldwide we organize the transportation (import, export, cross-trade, domestic) of valuables, such as precious metals, watches, banknotes, industrial products, ensuring that all formalities are performed smoothly and professionally. With VIA MAT INTERNATIONAL, your valuables are in safe hands.

We aim to find the best transportation solution for silver and other semi-valuables such as credit cards, computer chips, passports, etc. Whether shipments travel by air, sea, or road, we handle your sensitive goods with the utmost care and adapt our logistics services to suit your requirements. In addition to delivering valuables with our own armored trucking services, we are partnering with reputable local subcontractors where we are not present with our own affiliates.

STORAGE

We offer tailor-made storage solutions, for customs-bonded or domestic goods, at our own high-security storage and vaulting facilities. When required, we will also pack valuable shipments and forward them according to your instructions.

CUSTOMS FORMALITIES

We can ensure optimal customs clearance procedures on all kinds of valuables thanks to our open-bonded warehouse facilities and on-line connection with the Customs Authorities.

EXHIBITION LOGISTICS

Years of market experience in the international trade fair logistics sector enables us to offer an extensive service portfolio for storage, customs clearance, transit, and security at and around your trade fair. We also provide professional transportation services to and from the fair to whichever destination you request.

MINING BUSINESS

When transporting from the mine site to the refinery, creative and innovative solutions are required in addition to high-security procedures. Our forwarding and security professionals can easily solve the related logistic challenges, so why not ask us how we can help you.

STAFF

Highly well-trained and reliable employees consistently strive to meet your requests to provide you with top-quality services.

DISCRETION

Our specialist staff exclusively handles valuables confidentially and discreetly.

SECURITY

We operate at the highest level of security and carry out regular internal and external audits. Due to the nature of the business each individual specialist undergoes detailed professional training on a regular basis. This enables our teams to be optimally prepared for their varied and demanding work.

LIABILITY

All activities undertaken by VIA MAT INTERNATIONAL are exclusively subject to the current version of the "Terms and Conditions of Service" (TCS). A copy of the TCS is available on our website www.viamat-international.com. Such conditions deal with various matters including the Company's liabilities, the limitation and exclusion of liability in certain circumstances. Evidence of the insurance which VIA MAT INTERNATIONAL carries to cover its liability is available on request.
