

LOGISTICS CAN BE SO DIVERSE

Internationalism, individualism and service – we value these. Since 1945 we have been guaranteeing our clients an impeccable and professional handling of their goods.

AIR, SEA, ROAD OR RAIL

You determine by what mode of transport your goods will travel. We will organise the rest. As a competent specialist we offer you an unrivalled service. With «Track & Trace» you are kept informed at all times about the status of your goods.

GLOBAL COVERAGE

Thanks to our locations abroad and our worldwide partner network we can find the best solution for you to your international logistics requirements. We are large enough to offer global coverage and small enough to offer individual solutions.

OUTSOURCING

Leave your transport matters to the specialists. With LOOP – the LOGistics OPerator – you have a partner who takes on everything for you from acceptance of the order to calculation of the invoice, allowing you to fully concentrate on your key business.

PACKET LOGISTICS

With our distribution solutions we can guarantee you short running times. We ensure that your products reach the consignee quickly and at a reasonable price. This is made possible by an integrated distribution concept and electronic link-ups between clients, suppliers and partners.

STORAGE

We have various storage locations available in Switzerland and the EU. Whether it is European storage or open bonded warehouse storage facilities that you are looking for, we will find the optimal location for your goods.

CUSTOMS DUTIES

We can offer you European customs logistics solutions to suit your requirements.

INSURANCE SOLUTIONS

You can request a tailor-made solution for your transport insurance. We will be happy to make you an interesting quote.

FURTHER SPECIALITIES

We are the professionals for special transports, the transportation and import of vehicles; film and theatre logistics and for the transportation of perishable goods.
