

**SECURE. WORLDWIDE. EFFICIENT.  
YOUR WISH. OUR STYLE.**

**VIA *MAT* INTERNATIONAL**  
**safe from safe to safe®**

VIA MAT INTERNATIONAL (VMI) has been successfully specializing in worldwide valuables logistics services for over 60 years. If you are manufacturing or dealing with precious goods, then VMI is your ideal partner for high-quality transport or logistics solutions. We deliver your diamonds, jewelry, watches, gems, gold, silver and semi-finished products to the required destination, never neglecting the core of our business mission – safety, efficiency and reliability.

### **VALUABLES TRANSPORTATION**

Safety is our highest priority when transporting valuables. We evaluate your individual needs and find the best type of transportation for your jewelry, watches or gems. Whether in single or groupage shipments – we bring your precious goods from door to door. Fast, reliable and safe.

You can rely on our years of experience and local know-how in the diamond and jewelry (D&J) business. Due to our worldwide strategic locations we can organize safe and smooth transportation on a regional basis, nationwide or around the globe. We understand how to treat sensitive goods and know the safest flight routes with the fastest connections. For valuables which need permanent supervision we offer our special courier services. Would you like to outsource the entire distribution of your valuables to a reliable partner? Or, wish VMI to organize and implement the perfect packaging solution for your goods? Leave it to the experts; we will be happy to advise you.

### **VAULT & STORAGE**

When valuables change their owner or location, they often need to be stored – for a short or long period of time. VMI offers global solutions for longterm storage and bonded warehousing in our own secure storage and vaulting facilities. Our vaults are built with the most up-to-date security systems, ensuring your valuables are in safe hands at all times.

### **CUSTOMS FORMALITIES**

We relieve our customers of complicated and time-consuming customs paperwork. Our staff knows all aspects of customs formalities and has online connection to the customs authorities, ensuring you efficient and smooth customs clearance procedures.

VMI is also experienced in coordinating customs formalities for goods where a special CITES-certificate (Convention on International Trade in Endangered Species of Wild Fauna and Flora) is required.

### **EXHIBITION LOGISTICS**

Manufacturers and vendors worldwide meet regularly to exhibit their precious diamonds, jewels, watches and unique jewelry. VMI is an approved shipping partner for some of the most famous jewelry exhibitions in the world. We offer an extensive service palette for professional transportation services to and from the exhibition, storage, customs clearance, transit, and security services. Our staff is on-site during the exhibition and can assist you around-the-clock on any logistic matter.

### **COMPETENT AND RELIABLE STAFF**

Trust is the foundation on which our customer relations are built on. Experienced and multilingual staff consistently strive to meet your individual requests and provide you with top-quality services. Due to the nature of our business, our teams of specialists are carefully selected and receive extensive, specialized training on a regular basis.

### **“SAFE FROM SAFE TO SAFE”**

VMI operates at the highest level of security and our business philosophy “safe from safe to safe” has been internalized by our employees at all levels. Our custom-built vehicles and storage facilities are equipped with the latest security systems and state-of-the-art communications tools. Attractive insurance solutions complete our offerings.

### **VALNET GLOBAL ALLIANCE**

VMI is a founding member of VALNET – the new global alliance for valuables logistics. The alliance is formed by strong, independent partners who have long-standing expertise in the worldwide transportation and D&J business. Our customers worldwide benefit from the combined experience and local know-how of the renowned VALNET partners.
